*The RN-MSN program follows the application deadlines that are established by the university; the other graduate nursing programs follow deadlines established by the School of Nursing. It's important for RN-MSN applicants to monitor the university's term application deadlines at www.unf.edu under the "Prospective Students" section, as dates are subject to change without notice.

**RN-MSN candidates must be first evaluated against General Education and prerequisite requirements before a decision can be rendered; candidates are usually notified informally via email of their status with regard to these requirements. RN-MSN candidates may be offered RN-BSN instead of RN-MSN if GPA or GRE scores do not meet requirements. Those fully admissible are sent admission offers on a rolling basis as reviewed.

***The dates listed for the start of classes each term is the university's official start date. Check your personal class schedule for your actual first day of class by accessing it through the myWings portal.
