

Test of Essential Academic Skills (TEAS®) Entrance Exam for Prelicensure & Accelerated Prelicensure BSN

Testers Seeking Accommodations for Disabilities

UNF test takers seeking disability accommodations should contact the School of Nursing Admissions Office at nursingadmissions@unf.edu immediately to indicate this. Documentation regarding the disability to support the claim for accommodations should be supplied as far in advance as possible to the UNF Disability Resource Center. In all cases, claims will need to be verified; in some cases, paper-based testing materials will need to be ordered and shipped.

Those seeking *testing accommodations* at UNF such as extended time (requires pencil/paper exam) should indicate this on the registration form and contact Beth Dibble (at the above information) ASAP to allow ample time for arrangements to be made. Documentation will be required from the tester to support claims made for non-traditional testing and is subject to review by the university's Disability Resource Center. In some instances, an alternative testing date may be required.

Those seeking testing accommodations at other sites should make appropriate arrangements with that testing site in advance of the testing date.

Please note that if you wish to request special admission consideration based on a disability, it is the intent of the University to consider this information within the following guidelines: (1) documentation regarding the disability is to be provided on a voluntary basis, (2) all information will be kept confidential, (3) refusal to provide information will not subject the applicant to adverse treatment, and (4) information will only be used in connection with the university's voluntary efforts to overcome the effects of conditions that may have resulted in limited participation of persons with disabilities.
