RN-BSN summer cohort	February 19, 2010	See below notes**	Not Applicable	Not Applicable	TBA	May 10, 2010

*The RN-BSN program follows the application deadlines that are established by the university; the Prelicensure and Accelerated Prelicensure programs follow deadlines established by the School of Nursing. It's important for RN-BSN applicants to monitor the university's term application deadlines at www.unf.edu under the "Prospective Students" section, as dates are subject to change without notice.

**The RN-BSN program does not officially send letters of acceptance; rather, applicants are notified by e-mail as to their application status once reviewed. After accessing the results of this review in the myWings portal, candidates are responsible for scheduling an appointment with the Brooks College of Health Advising Office to finalize admission to the program.

***The dates listed for the start of classes each term is the university's official start date. Check your personal class schedule for your actual first day of class by accessing it through the myWings portal.

Prelicensure/Accelerated Interviews

Please note that an interview is conducted prior to admission into the Prelicensure/Accelerated tracks. The interview is competitive and is conducted in a group setting. *There will be no change in interview dates except for extreme emergency.*

Prelicensure/Accelerated Orientation

Please note that there is a **mandatory** 2-day orientation (Taking Flight) for all students admitted to the Prelicensure/Accelerated tracks. *Failure to attend will result in the forfeiture of one's seat.*
