I have attached a summary of my qualifications for editing this paper. yes no

If not, please fill in the following to summarize your qualifications for editing this paper:

Academic Degree/Major	Institution	Year

Editing experience: _____

_____

_____

_____

By School of Computing policy the paper submitted must be accompanied by a signed editorial certification form (http://www.unf.edu/ccec/cis/SoCpdf/EditorialCertificationForm.pdf) for it to be reviewed by the School staff and the University administrators whose names appear on the signature page. ***A signed editorial certification form does not assure that the paper will clear subsequent review.*** *At any level of the review process, a reviewer who determines that a paper has significant deficiencies may return the paper via the thesis advisor or project director for correction, in which case the paper will need to be re-certified and the review process started over. In this event it is likely that graduation will be delayed.*
