

The UNF School of Engineering is seeking highly qualified individuals who want to make a difference in the lives of engineering students by teaching a variety of undergraduate and graduate courses in civil, electrical, and mechanical engineering, guest lecturing, and mentoring design projects. The monetary benefits are small, but the rewards are large. Successful applicants will be named Affiliated Faculty and be listed in School publications, including the School website. These positions are uncompensated except during those semesters in which they are the instructor of record for a course. A graduate degree in civil, electrical, mechanical engineering or other closely related engineering discipline is required. Interested candidates should submit a letter of interest, detailed resume, and the names, phone numbers, and email addresses of three references to Dr. Stephan J. Nix, Director, School of Engineering, University of North Florida, 1 UNF Drive, Jacksonville, FL 32224. Resumes will be reviewed beginning August 25, 2008. Questions should be directed to Dr. Nix at 904-620-1390 or snix@unf.edu.
