UNF

Creating Sessions in Blackboard

Center for Instruction & Research Technology

- Make Elluminate tool available
- Create sessions via tool
- Filter session visibility in tool by date and type
- Add sessions to content areas and/or email link to participants

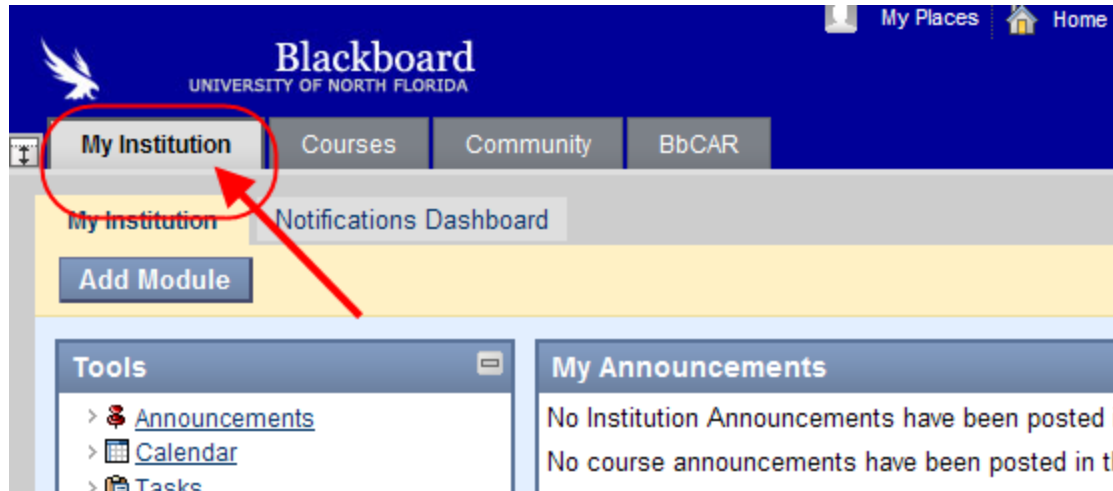

UNF

Creating Sessions in Blackboard

Center for Instruction & Research Technology

- Hide the session you are in in and go back to your Blackboard My Institution tab

- Enter the course you are *teaching*
Blackboard Learn Workshop-Elluminate Training

Blackboard Integration

Center for Instruction & Research Technology

- **Create the following sessions:**
 - A single session for today, from 10:15 am-12 pm in which all students are moderators
 - Office Hours for the fall semester, every Wednesday from 3 – 5 pm
(hint- use recurring feature)
- **Add a link to each session to the Illuminate content area in your course**

UNF

Content Management

Center for Instruction & Research Technology

- Enter the session you created for today
- In the session, load a PowerPoint and at least 3 images. Experiment with the sub-menu.
- You can find some materials to work with on the transfer drive in the Elluminate folder.
- Try the Elluminate clip art, text boxes, and other tools.

UNF

Session Management

Center for Instruction & Research Technology

- In Blackboard, go to the My Institution tab and go into the course in which you are **enrolled**, and enter the SOC Elluminate session.
- Enter the session for your training ID.
- Practice managing privileges for whiteboard and audio
- Use the chat
- Take turns with the moderator privilege so everyone can practice

More Features

Center for Instruction & Research Technology

- Conduct a Poll
- File Transfer
- Desktop Sharing
- Application Sharing
- Web Tour
- Load and Play Multimedia Content

UNF

What else?

Center for Instruction & Research Technology

- Use illuminate.com and CIRT to learn more.
- **Illuminate Training, Part II**
Date: Friday, November 13, 1:30 pm – 3:00 pm
Learn about advanced features of Illuminate, including polling, application sharing, web tours, file transfer, multimedia content, and quizzes. Illuminate Plan! is also covered. Plan! is a standalone desktop application that enables the instructor to prepare the content of an Illuminate *Live!* session ahead of time and then automate the actions within a session. Best practices for online sessions are addressed throughout.
