

## Windows Movie Maker: Saving Videos for YouTube

1. When you have finished editing your movie in Windows Movie Maker, Click **Publish Movie**:

2. The Publish Movie wizard starts. On the **'Where do you want to publish your movie?'** step, choose **This computer**:

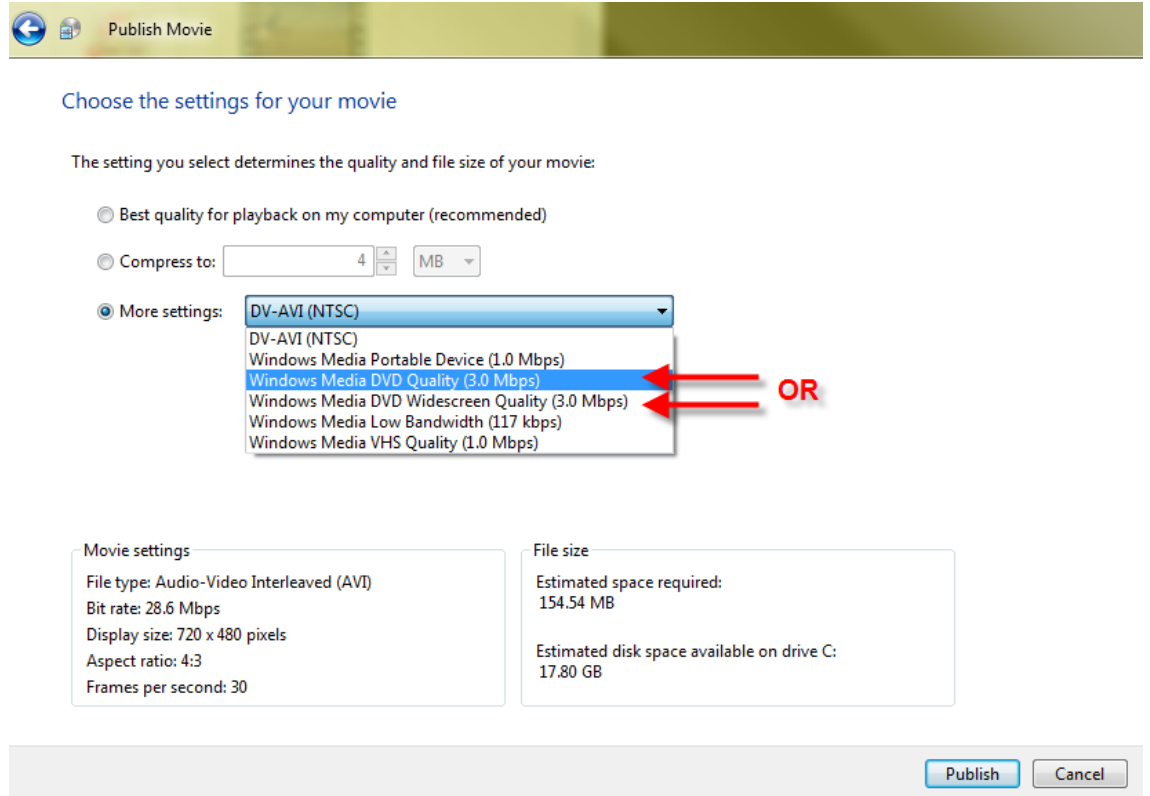

Then click **Next**

3. On the **'Name the movie you are publishing'** step, give the movie a name and choose the location where it will be published; then click **Next**
  
4. On the **'Choose the setting for your movie'** step, choose **More settings:**
  - a. **Windows Media DVD Quality (3.0 Mbps)** if your video is not widescreen

**OR**

  - b. **Windows Media DVD Widescreen Quality (3.0 Mbps)** if your video is not widescreen

Then Click **Publish**.
