

MEMORANDUM

TO: University Community

FROM: Dan Endicott, Director
Environmental Health & Safety

SUBJECT: Notice of Pest Control Program

The University maintains a pest management contract to control insects in campus buildings. The contractor provides this service in common areas of building interiors and the perimeter of building exteriors.

The materials and methods of application have been selected and designed to minimize the concerns typically associated with this service. For example, baits and gels are used and occupied areas will not be treated with liquids or sprays unless a specific request is made.

Individuals requiring special consideration or accommodation due to medical or health considerations may contact this office at extension 2019. Treatment requests or questions regarding scheduling should be directed to Physical Facilities at extension 2490.

Thank you for your attention and do not hesitate to call with questions or comments.
