

Using Nudist Software for Qualitative Research

Faculty Fellows Presentation by:
Valerie Spitler, Assistant Professor,
Department of Management,
Marketing, and Logistics.

*"Rapid and robust even for large projects, N6, the latest version of NUD*IST, is a powerful program that allows easy access to data and extensive automation of clerical tasks. . ."*

Dr. Spitler will share her experience of using NUD*IST for a research project containing over 500 pages of text documents.

Anyone who conducts qualitative research may benefit from this presentation.
