Issue Housing Rental Rates for 2008-2009

Proposed Action Approval

Background Information

This is a request to approve new housing rental rates for 2008-2009, allowing the university to use accurate rates in recruitment documents for students who will be entering that year. These rates have been reviewed by students. During this review, members of the student body raised issues concerning the proposed change in the cancellation fee. They did, however, agree with the increase in the housing rates themselves.

All fee increases, including the change to the cancellation fee, were recommended by the Auxiliary Budget Committee. They are endorsed by the President.
