

UNF Board of Trustees

October 18, 2007

Issue Schedule of Tuition and Fees

Proposed Action Approval

Background Information

The University proposes to increase in-state undergraduate tuition by 5 percent, beginning in January 2008. This increase has been mandated by the Florida Board of Governors. Each state university has been asked to approve the same increase. A similar increase was approved by the State Legislature.

If the increase is approved, it will require an emergency amendment to the current tuition and fees regulation.
