

UNF Board of Trustees

October 18, 2007

Issue Reports on Animal Research and Care, New Administrative and Faculty Hires, UNF's Graduate School, and *U.S. News and World Report* Rankings

Proposed Action Discussion

Background Information

Provost Mark Workman will address the Board and present reports on animal research, new administrative and faculty hires, UNF's Graduate School and *U. S. News and World Report* rankings.

The animal research report responds to a recommendation from Trustee Kendrick and presents information on the care that animals used in research receive. The new administrative and faculty hires report provides details on administrative and faculty hires. The report from UNF's Graduate School was requested by Chair Taylor and provides information on funding issues for the school. The *U. S. News and World Report* rankings are being presented to update the Board of Trustees on UNF's performance in specific elements of this ranking system.

These reports were discussed at the Educational Policy Committee with no further information being requested at this time.
