

UNF Board of Trustees

April 17, 2008

Issue Student Loan Practices Code of Conduct Policy

Proposed Action Approval

Background Information

In response to the various national reports on student loan practices at some universities across the country, the Board of Governors' staff has recommended a set of standards that would ensure that each state university follows the strictest of criteria in working with students to secure and process college loans. The purpose of this item is to present a policy that puts into place these standards.

The Board of Governors approved this Code of Conduct at their December 2007 meeting.
