

**UNF Educational Policy Committee**  
September 30, 2009

**Issue**                      Approval of Regulation – Student Conduct Code

---

**Proposed Action**        Approval

---

**Background Information**

The Board of Trustees has responsibility for adopting regulations, therefore the purpose of this item is to present proposed amendments to the Student Conduct Code. When a student is charged with a conduct code violation, significant changes are:

- If the charged student is found responsible, the Vice President for Student and International Affairs, or designee, will determine an appropriate sanction.
- The student may be removed from their housing assignment, have their contract cancelled and be prohibited from visiting the housing areas prior to the conduct hearing.
- The time limit for sending a sanction letter to the student following the hearing will be 14 class days instead of 10 days.

Any student charged and/or convicted with a criminal offense may be subjected to disciplinary action under the Student Conduct Code. The code requires students charged and/or convicted with a criminal offense to self report the situation.
