

**UNF Board of Trustees**

June 16, 2005

**Issue:** Educational Plant Survey

---

**Proposed action:** Approval

---

**Background information:**

At least every five years, each board shall arrange for an educational plant survey to aid in formulating plans for housing the educational programs and student population, faculty, administrators, staff, and auxiliary and ancillary services of the campus. The survey must reflect the capacity of existing facilities as specified in the inventory maintained and validated by the Division of Colleges and Universities. The recommendations for the survey team are consistent with the PECO request. This is to request approval of the president's letter to the Florida Department of Education.
