Lambert, David J. Develop and Field Test the Automated Disaster Community Health Assessment System, Florida Department of Health, $20,230.

Lambert, David J. Development and Evaluation of a Deployable Impromptu Mesoscale WEB-Enabled Network, $20,000, University Corporation for Atmospheric Research.

Lambert, David J. Create a Public Version of the Internet Site, Florida Department of Health, $1000.

Lambert, David J. Develop a Web-Based Training Module, Florida Department of Health, $3150.

Lambert, David J. Sweetwater Disaster Relief Support, Florida Department of Health, $3,500.

Lambert, David J. Develop a Prototype Rapid Impact Assessment System (RIAT) to get Operational Status during a Disaster, Florida Department of Health, $19,175.

Lambert, David J. Update the Web-Based Training Module to include tutorial for RIAT and training of four Assessment Teams in the use of the System, Florida Department of Health, $6,684.

Lambert, David J. “Annual Simulated Hurricane Disaster.” Florida Department of Health, $6,500.

Lambert, David J. “Hurricane Training Module.” Department of Health, $3,150.

Malhas, Faris A. “Comparative Analysis of ACI and EC2 Reinforced Concrete Design Codes.” Bradley University Graduate School Fellowship, $18,000.

Merckel, Jerry U. “Automation of the Worker's Compensation Process.” Momentum Health Care, $9,000.

Merckel, Jerry U.  “Palm Pilot Hospital Application.” Funded by Simkin/Health Care Systems, $10,000.

Woolschlager, John E.  CDWQ Project Extension and a New Project for the Preliminary Experimental Evaluation of Cometabolism of Monochloramine by Nitrifying Bacteria, CIRSEE Technology and Research Center, $45,000.

Woolschlager, John E.  The Comprehensive Disinfection and Water Quality Model Research Project, CIRSEE Technology and Research Center, $25,000.

Woolschlager, John E.  Investigate Sedimentation Mechanisms in the Mill Cove Area of the St.Johns River, Jacksonville Electric Authority, $19,923.
