

## **STUDENT SPOTLIGHT**

***Arielle O'Neal***

Arielle O'Neal, Mechanical Engineering student, recently received a scholarship from the ACE Mentor Program of Northeast Florida for volunteering as a college mentor at Robert E. Lee High School. Robert E. Lee High School is one of several schools from Duval, St. Johns and Clay County that participate in the program.

The mission of the ACE Mentor Program of Northeast Florida is to help high school students explore careers in architecture, construction and engineering. Arielle is no stranger to the ACE Mentor Program because she participated in high school. College students are eligible to participate in the program as mentors provided they complete the mentor training and be willing to dedicate up to 30 hours of their time during the school year. Arielle completed her volunteer hours and received recommendations from her industry mentors for a \$1,000 scholarship. [Click on the image above and read Arielle's bio.](#)
