

The GlobalMBA is a unique program providing graduate students the opportunity to combine intensive classroom study with residential experiences in four countries: Germany, Poland, China and the United States. The GlobalMBA is offered by a consortium of four universities: Technische Hochschule Köln (Germany), the University of Warsaw (Poland), Dongbei University of Finance and Economics (China) and the University of North Florida (USA). Each school holds accreditation in their respective countries.

This decision is made by the institution subsequently considering the possibility of accepting such credits.
