The Coggin College of Business operates a college-wide strategy to assess its six learning objectives. Each of the 11 programs of study (housed in 4 departments) has adopted these as its learning objectives, which links to the university’s three broad learning categories. While each of these objectives is differentially emphasized in the various programs of study, they are common to the core body of knowledge provided to all students majoring in a sub-field of business. The college utilizes a multi-year time horizon to assess alternating objectives. This time horizon corresponds to the AACSB (re)accreditation cycle.

Oral communication (objective 1) is assessed by student performance during SPC 4064 (Public Speaking for Professionals), using a standardized, anchored grading rubric.

Written communication (objective 1) is assessed in MAN3025, via a standardized written evaluation system.
Electronic communication (objective 1) is assessed in MAN3025, via a standardized evaluation system.

Ethics (objective 2) is assessed via a standardized test in the capstone policy course.

International business knowledge (objective 3) is assessed on the international assessment indicator (sub-score) of the Major Field Test in Business, an instrument of the Educational Testing Service (ETS). It is administered in each student's last term in his/her program of study via the capstone policy course.

Technology use (objective 4) is assessed on the information system assessment indicator (sub-score) of the Major Field Test in Business, an instrument of the Educational Testing Service (ETS). It is administered in each student's last term in his/her program of study via the capstone policy course.

Critical thinking (objective 5) is assessed via the Educational Testing Service (ETS) Proficiency Exam, with plans to administer a standardized test via MAN3504. It is administered in each student's last term in his/her program of study via the capstone policy course.

Content knowledge in the functional areas of business (objective 6) is assessed via the Major Field Test in Business, an instrument of the Educational Testing Service (ETS). It is administered in each student's last term in his/her program of study via the capstone policy course. Content knowledge is measured by the overall score, as well as the score on each of eight assessment indicators (sub-scores), including accounting, economics, management, quantitative analysis, finance, marketing, legal / social environment, and information systems.

Assessment mechanisms may change over time.
