INTERNET PRESENCE COMMITTEE

Minutes

June 26, 2014

Members Present: Sharon Ashton, Marianne Jaffee, Lance Taylor and Torrey Ogden

Others Present: Marian Watters, Haylie Snipes and Stuart Chalk

Request from Stuart Chalk, Environmental Center:
The EC has a server at center.coas.unf.edu (139.62.234.60 - housed in the NOC) and as the EC is going to be directly under the AVP for Research’s office (and not in COAS) it should really be changed to ecenter.unf.edu. I hope that will be a trivial change.
I would also like to get some IP aliases; preserve.unf.edu, research.ecenter.unf.edu and sjrda.unf.edu which would all point to 139.62.234.60. These are needed for projects that the EC currently funds and would make it easier to market the Sawmill Slough preserve for instance.

• Motion made, seconded and approved for the request for the four URLs with the understanding the UNF Environmental Center Archive will be UNF branded and contain links to and from the UNF Environmental Center pages in CMS.
• ACTION ITEMS: Lance Taylor will talk to Jeff Durfee to get the new URLs and Marian Watters will send Stuart Chalk the template.

ITEMS FOR THE NEXT IPC MEETING:
• ADA compliance
• User group
