Red Flag Program Procedures

IDENTIFICATION OF RED FLAGS

In order to identify relevant Red Flags, the University considers the types of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experiences with Identity Theft. DETECTING RED FLAGS

A. Student Enrollment
In order to detect any of the Red Flags identified above associated with the enrollment of a student, University personnel will take the following steps to obtain and verify the identity of the person opening the account:

1. Require certain identifying information where appropriate such as name, SSN, date of birth, academic records, home address or other identification; and
2. Verify the student’s identity at time of issuance of student identification card (review of driver’s license or other government-issued photo identification).

B. Existing Accounts
In order to detect any of the Red Flags identified above for an existing Covered Account, University personnel will take the following steps to monitor transactions on an account:

1. Verify the identification of students if they request information;
2. Verify the validity of requests to change billing addresses by mail or email and provide the student a reasonable means of promptly reporting incorrect billing address changes; and
3. Verify changes in banking information given for billing and payment purposes.
C. Consumer ("Credit") Report Requests
In order to detect any of the Red Flags identified above for an employment or volunteer position for which a credit or background report is sought, University personnel will take the following steps to assist in identifying address discrepancies:

1. Require written verification from any applicant that the address provided by the applicant is accurate at the time the request for the credit report is made to the consumer reporting agency; and

2. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the applicant for whom the requested report was made and report to the consumer reporting agency an address for the applicant that the University has reasonably confirmed is accurate.

PREVENTING AND MITIGATING IDENTITY THEFT
In the event University personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:

Prevent and Mitigate
1. Continue to monitor a Covered Account for evidence of Identity Theft;

2. Contact the person (for which a credit report was run);

3. Change any passwords or other security devices that permit access to Covered Accounts;

4. Not open a new Covered Account;

5. Provide the student with a new student identification number;

6. Notify the Program Administrator for determination of the appropriate step(s) to take;

7. Notify law enforcement;

8. File or assist in filing a Suspicious Activities Report ("SAR");

9. Determine that no response is warranted under the particular circumstances;

10. Notification of other University units as appropriate; or

11. Other steps as deemed appropriate.

Protect Student Identifying Information
In order to further prevent the likelihood of Identity Theft occurring with respect to Covered Accounts, the University will take the following steps with respect to its internal operating procedures to protect student identifying information:

1. Ensure that its website is secure or provide clear notice that the website is not secure;

2. Ensure complete and secure destruction of paper documents and computer files containing account information when a decision has been made to no longer maintain such information;
3. Ensure that office computers with access to Covered Account information are password protected;

4. Avoid use of social security numbers where not appropriate and/or necessary;

5. Ensure computer virus protection is up to date; and

6. Require and keep only the kinds of information that are necessary for University purposes.
