

UNF Faculty Domains is a full featured web hosting solution that offers UNF faculty the opportunity to create an academic publishing space using modern applications such as WordPress, Omeka, and Scalar. In this workshop we will explain what the Faculty Domains program has to offer. We will also explore the tools and technology that makes up the web, examine the notion of a digital identity, and learn to take ownership and control over the content you publish to the web.

- What is a Domain?
- Introduce the new UNF subdomain - domains.unf.edu
- How it used to be...vs. ...using modern tools
- ADA Web Guidelines (Accessibility)
- Think about Digital Identity
- Personal Domains
- Introduce signup process
- Subdomains vs. Folders
- Introduce Web Applications - WordPress, Omeka, and Scalar
- UNF Faculty Template - <https://template.domains.unf.edu/>
- Tour of cPanel
- Tour of the UNF Faculty Domains website
 - <https://domains.unf.edu/about/>
 - <https://domains.unf.edu/support/>
 - <https://domains.unf.edu/documentation/>
 - <https://domains.unf.edu/accessibility/>
