

## Master of Public Health (MPH) Degree Program (45 Hrs)

### Course Sequence for Students Starting (Updated April 2018)

**Notes:** Following the course sequence is mandatory to graduate according to the schedule shown in the MPH Handbook for your cohort. Students must be prepared for subsequent courses and MPH courses are offered only once per year. Students who fail to follow the course sequence will delay their graduation by possibly a year or more. International students who do not follow the sequence will not be granted extensions of their stay in the U.S. and may forfeit their ability to complete the degree. When changes are made to the course sequence, appropriate accommodations will be made for students who might be adversely affected for reasons out of their control. The program is not obligated to make special accommodations for students who fail to follow the course sequence provided.

#### **Full Time Students**

##### **Fall 1**

PHC 6000: Epidemiology I  
PHC 6050: Public Health Biostatistics I
