

Graduate Public Health Certificate (15 Hrs)

Public Health Program

Course Sequence for Students Starting Fall 2017

Notes: Following the course sequence is mandatory to completing the certificate program in a timely manner. Students must be prepared for subsequent courses and these courses are offered only once per year. Students who fail to follow the course sequence will delay completing their certificate by possibly a year or more. When changes are made to the course sequence, appropriate accommodations will be made for students who might be adversely affected for reasons out of their control. The program is not obligated to make special accommodations for students who fail to follow the course sequence provided.
