Requirements

1. As an internship partner, the company must provide construction management related tasks to the student during the academic internship, including but not limited to activities such as estimating, scheduling, procurement, quality control, safety management, construction finance and cost control, etc.
2. The company must remain active with the Construction Management Department within a one year timeframe through avenues such as job postings on Osprey Career Link, hiring of interns and/or alumni, participation in the Employer Showcase, assistance with and/or donor support of construction management student clubs, attendance at the annual Hard Hat Banquet, participation and/or support of student events, scholarships.

If your company meets the requirements and would like to be included on the Industry Internship Partners list, please contact the Construction Management Department at (904) 620-2683.
