

Fort Worth Zoo Conservation Expedition

Travel to the British Virgin Islands to help
the Anegada Iguana (*Cyclura pinguis*)

Dates: Session 1: May 24-June 1, 2012
Session 2: June 5-13, 2012

Where: Anegada, British Virgin Islands (BVI)

Cost: \$1,375 per session

Group size: Seven to 10 participants with a
project leader and assistant leader

The Fort Worth Zoo is seeking students to provide support for an Anegada iguana conservation project. All participants will play a direct role in conservation research and gain skills in field methods.

As a participant you will:

- Learn field research methods such as distance sampling, mark-recapture, and GPS
- Assist in taking morphological data on iguanas in the headstart facility
- Set and maintain live traps daily to capture iguanas
- Assist in taking morphological data on any captured wildlife
- Assist researchers with camera-trapping surveys
- Gain invaluable experience, as well as enhance resume and continuing educational opportunities

Cost Includes: One (1) night on Tortola, BVI; One (1) round-trip ferry ticket from Tortola to Anegada; Seven (7) nights on Anegada; meals on Anegada; field supplies; transportation on Anegada; a lobster dinner, and all routine expenses on Anegada

Cost does NOT include: Airfare to Tortola, BVI, meals on Tortola, cab fare to and from the airport
