The meeting was called to order at 1.30 p.m. after a quorum of voting members had arrived. This meeting held at the request of Lynn Jones for accreditation purposes.

1. Steven Williamson proposed consideration of integrating an entrepreneurship component into each of our MBA courses, much like we have done with international, to give our current MBA curriculum an entrepreneurship slant, thus differentiating it from the other MBA programs available in the community and meeting a community need. The merits of the proposal were discussed and the idea dropped for lack of interest.
2. Lynn Jones presented and discussed Accreditation Metrics and her needs for the majority of the meeting as informational items. No action was taken by the GCC.

The meeting was adjourned with the GCC taking no action at 2.30 p.m.
