MEDICAL INFORMATION *(this section is optional for students to fill out and will be kept confidential)*

If you have a disability defined by the Americans with Disabilities (ADA), which may require an accommodation or auxiliary aid(s), please contact register with UNF Student Accessibility Services. Please note that foreign countries do not have to comply with the public access requirements of the ADA and there may be physical or other barriers that impair equal access to medical care, lodgings, restaurants, businesses, and other buildings, services or facilities in foreign locales. As such, students with disabilities are strongly encouraged to research the access and service limitations of the locales to be visited. Further, prior to signing up for the study abroad program, the student should contact the study abroad advisor to that it can be ascertained whether the student will be able to participate in all of the activities of the desired study abroad program and/or if the student will be able to receive appropriate accommodations.

I require accommodations and have visited the UNF Student Accessibility Services.

List any medical conditions, disabilities, allergies, dietary restrictions, or mental/physical challenges that the study abroad advisor should be aware of so that we might be able to reach out to the host university on your behalf and find appropriate accommodations:
