Important Definitions:

Withdrawal during the drop period or before the term begins = **DROP**

Withdrawal after the drop period with punitive or non-punitive grades = **WITHDRAW**

UNF Graduate Registration Hours and Equivalency

Registration vs Term Length	SumC	Sum10	Sum8 (1H/2H)	SumA or B
6 hours	FT	FT	FT	FT
4 hours	½	¾	FT	FT
3 hours	¼	¼	½	FT

Standard Definitions used by the VA:

- ❖ VA Certification of Enrollment
 - Submitting registration information to the VA through the online VA-Once system via manual input.
 - Students must have completed the online Request For Veterans Benefits through myWings.
- ❖ Degree Applicable
 - Coursework must appear on the Degree Evaluation or we must receive an email from the Academic Advisor.
 - We must have a way to demonstrate to the VA that the student is taking degree-applicable coursework.
- ❖ Enrollment Period
 - Each part of term is considered its own term and must be certified individually to the VA.
 - We submit the start and end dates of the term and the VA calculates the registration vs term length.
- ❖ In-Residence Coursework
 - Coursework with any online (DL) or self-study component is considered "distance."
 - Students taking all online coursework are paid at a different rate for their monthly housing allowance.

Important Information:

The VA does not understand what we mean by fall/ spring/ summer. The VA only looks at the start and end dates for a particular session. Therefore, each start and end date is considered its own term. Terms that overlap can be combined for full-time status. Students must spread out their registration through the various parts of term to remain full-time throughout the semester. For example: taking all coursework in the first half of the term will only get a student paid their monthly allowance for that part of term.

Fill-In Rule – Students can fill-in a full-time schedule with any credit hour coursework during their graduating term even if not related to program.
