Library Liaisons

The Library Liaison Program pairs library faculty with a representative from each of the University’s academic departments.

The goals of the program are to enhance communication between the library and academic units, to develop a systematic and sustainable method for developing library collections by working with faculty members, and to identify more clearly library resources needed to support the University’s academic programs and research.

Additional information about the program and a current listing of library and department representatives is available on the library website.

Course Reserves

Faculty can place both library materials and personal items on reserve for their classes. Further information about course reserves can be found at the library’s website.

Citation Indexes

Citation Index databases can be used to find out who has cited specific works. The Library has access to several:

- **Science Citation Index/Web of Science**
  - Fully indexes over 6,650 major journals across 150 disciplines. UNF’s subscription covers 1991 - present.

- **Social Sciences Citation Index/Web of Science**
  - Fully indexes more than 1,725 journals across 50 social sciences disciplines, and it indexes individually selected, relevant items from over 3,300 of the world’s leading scientific and technical journals.

Library Services for Faculty

Thomas G. Carpenter Library

University of North Florida
Jacksonville, Florida
About the Library
www.unf.edu/library

The Thomas G. Carpenter Library at the University of North Florida houses a multitude of resources including books, videos, journals, magazines, newspapers, and even rare books and manuscripts.

In addition to in-house collections, the library subscribes to over 200 research databases offering a rich collection of articles from magazines, newspapers, and journals, online media, and electronic books. Nearly all of the library’s electronic collections can be accessed off campus via the library’s website or through the myWings portal using the UNF campus online login (N-number and password).

For research needs not supported by the library’s own collections, the library provides access to materials state-wide via the UBorrow system and nationwide via Interlibrary Loan.

Library materials may be renewed online via the library website. Online support includes chat, LibAnswers, and LibGuides.

Library Phone Numbers

- Access Services (904) 620-2615
- Research & Instruction (904) 620-2616
- Government Documents (904) 620-2617
- Periodicals (904) 620-2618
- Special Collections (904) 620-1533

Digital Commons
An institutional repository that provides a stable electronic location for research and scholarly material works by faculty, staff, and students.

http://digitalcommons.unf.edu

Library Instruction
Class Instruction
Instruction sessions are provided on demand and conducted in the library’s classrooms, in your classroom, or online. Faculty needing research training for their students are encouraged to apply online using the instruction form available on the library’s website under Services for Faculty. Fall term is particularly busy for library instruction, so faculty should submit instruction requests as soon as possible.

Faculty Services and Resources
www.unf.edu/library/faculty/

The library offers a variety of services and resources for faculty members. On the library website you can find links to citation managers and copyright information, as well as online forms that will allow you to request books, course reserve materials, and library instruction classes.

OneSearch
OneSearch is a web-scale discovery tool that allows researchers to search many of the library’s online systems for books, media, and articles, both in-house and online. Search results can be limited by a number of different methods, including by date, by type of publication, by online availability, and by content provider. OneSearch allows quick discovery of library resources and materials.

Research Databases
While OneSearch is a powerful tool for simultaneously searching many library databases, researchers who are accustomed to searching discipline-specific databases can do so by utilizing the library’s many Research Databases. Databases of particular interest to faculty include ISI Web of Science, Journal Citation Reports, and WorldCat.
