

2ND ANNUAL

WORKSHOP

Please plan to join us at the University of Central Florida in Orlando, FL for a **two-day workshop** (lunch included).

This workshop is appropriate for both new and returning participants, **designed for higher educational professionals** at Florida public institutions responsible for building or revising a professional development program for future online instructors. While the workshop is growing into somewhat of a conference format, this is still a workshop which is intended to be interactive with key takeaways.

3 WAYS TO MAKE THE MOST OF YOUR WORKSHOP EXPERIENCE

- 1) Based on our experience, we highly recommend setting specific goals in advance and listing them on your registration form
- 2) Plan to meet with someone at your institution who may help you refine your goals
- 3) Report back after the workshop with your key takeaways and the action steps you plan to take to enhance or implement your faculty development program

MARCH 14-15, 2018 9:00AM - 4:00PM

Registration and Call for Proposals:
