MEMORANDUM

TO: Jeff Durfee, Information Security Manager and Director of IT  
Networking, Office of Information Technology Services

FROM: David M. Szymanski, Ph.D.   
President

SUBJECT: Delegation of Authority of Information Security Manager

Pursuant to Regulation 3.0075 of the Board of Governors of the State University System of Florida, the University President is responsible for ensuring appropriate and auditable security controls are in place for the University and the University is required to appoint an Information Security Manager to administer the information security program / policies / procedures for the institution.

To this end, effective June 28, 2018, I hereby designate the Director of IT Networking, Office of Information Technology Services, as the University's Information Security Manager.

This delegation of authority supersedes any and all prior delegations by this office as to this subject matter, shall remain in effect until revoked by me in writing and shall not be further delegated.
