SELECTION CRITERIA

7. Academic Performance: GPAs from UNF as well as from other institutions will be considered.
8. Financial Need: Applicants must support personal attestations of need with credible documentary evidence. Economic need is defined for the purposes of this program to be (1) unanticipated, (2) beyond the control of the applicant and or sponsor, and (3) represents a clear hardship.
9. Extracurricular activities: Applicants should be able to demonstrate current or past memberships or leadership activities which further building a community of student leaders and enhancing the institutional goal of "internationalization" of the campus and community.
10. Work activities: In addition to enhancing personal leadership, another element of the "internationalization" of the campus and the community is evidenced through the applicant's participation in activities in the work place, across the campus or through approved cooperative education or internship/academic training programs. In addition, employment activities, when authorized and available, address the economics of the student with a positive impact in the aggregate.

NOTE: To maintain eligibility while receiving the waivers, you must inform the International Center of any changes in: (1) course load, (2) residency status, and/or (3) academic major change.
